

Pass the Education Budget Now!

Alabama's K-12 Students Need You!

If the budget does not pass May 19, it is K-12 students who will suffer. We can't afford to wait for a special session to finalize the education budget.

Without a budget, there will be a costly, unnecessary special session.
The uncertainty would mean ...

- Teacher pink slips
- Textbook order delays
- Putting critical programs on hold

Higher education is holding the education budget hostage in an attempt to add \$25 million that just isn't there. Universities are calling senators.

Won't you make the call for K-12 students?
