Clinic Session

Building the Best

*Tips for
Developing,
Implementing,
and Sustaining
Best Practices*

What is a Best Practice?

Best – Optimal Practice – Procedure

“A Best Practice is a procedure that has been shown by research and experience to produce optimal results and that is established or proposed as a standard suitable for widespread adoption.”

--Merriam Webster

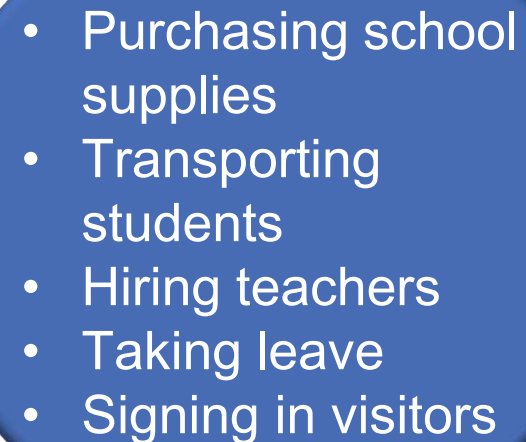

Why is Important to Have Best Practices?

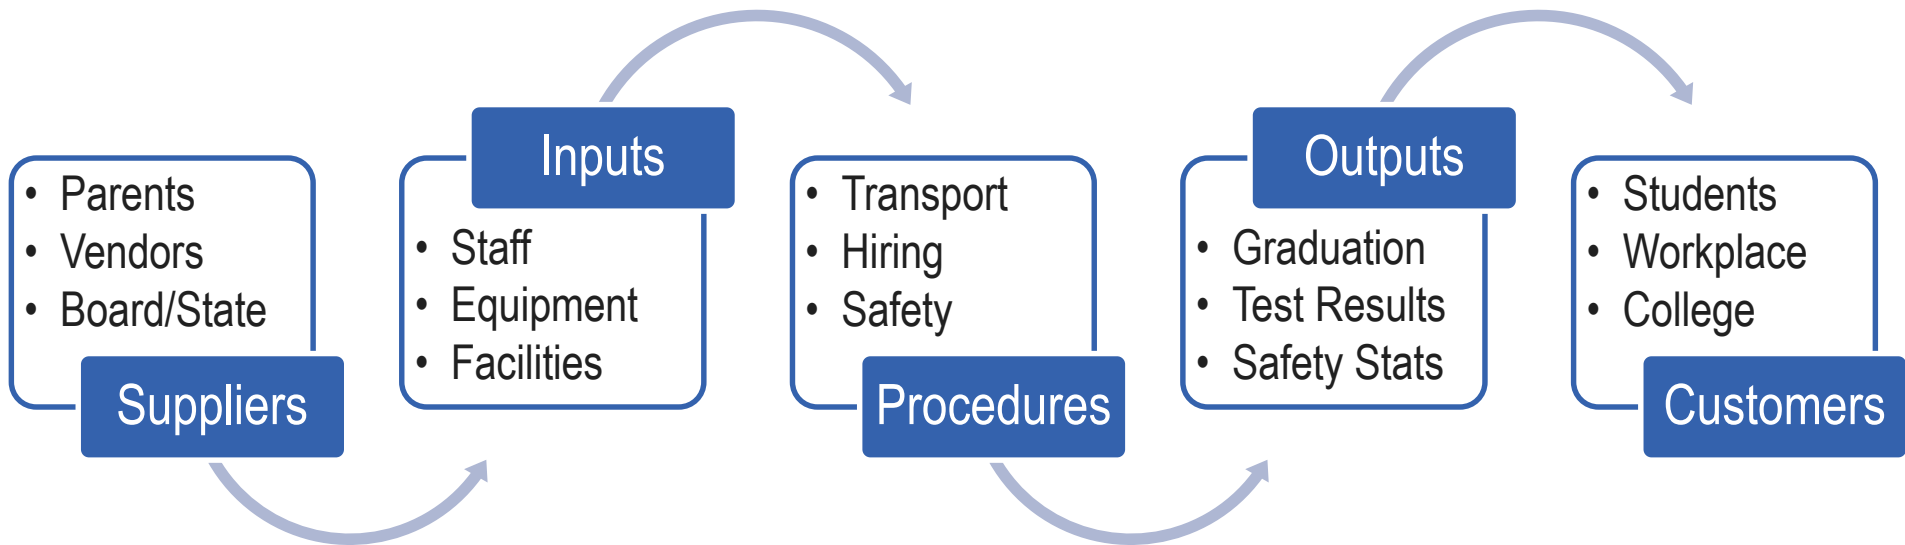

Remember – a Best Practice is an Optimal Procedure.

We have procedures in our personal and our professional lives.

- 
- Cleaning the house
 - Grocery shopping
 - Going on vacation
 - Paying bills
 - Disciplining children

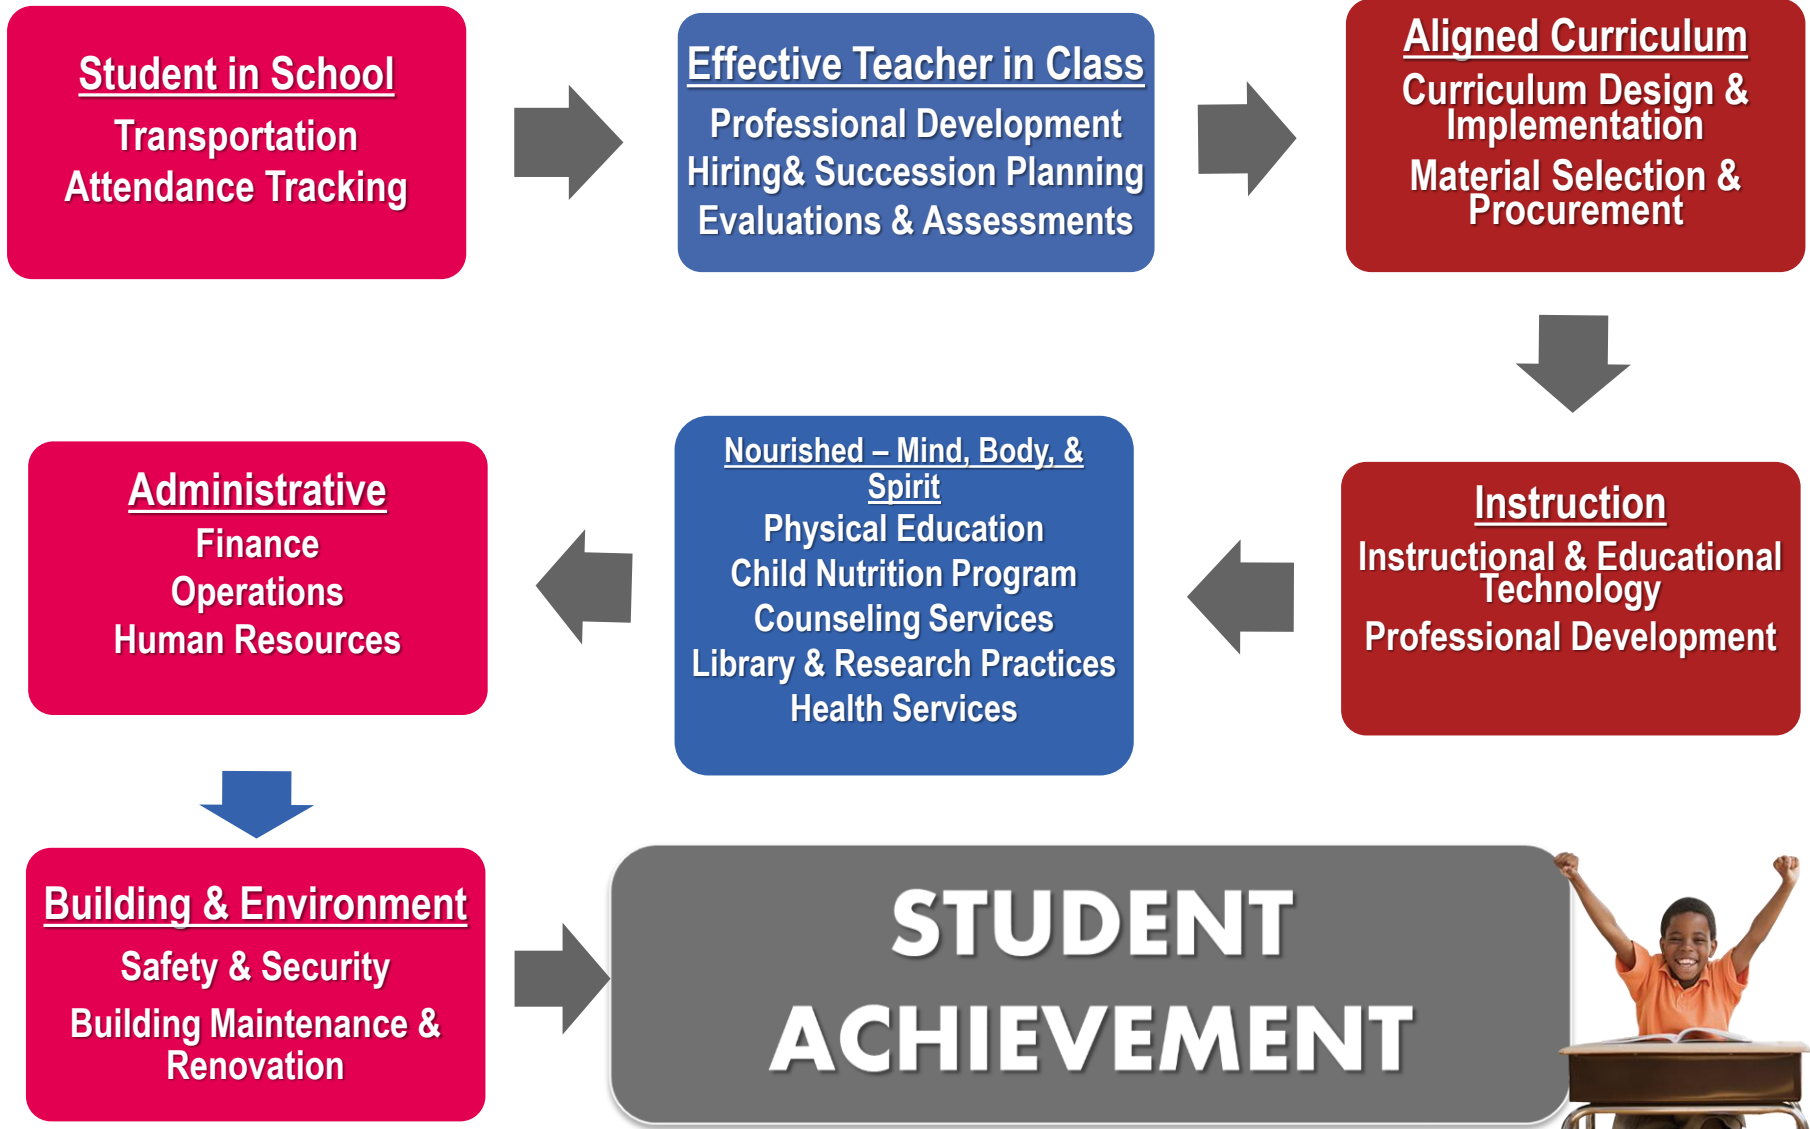

- 
- Purchasing school supplies
 - Transporting students
 - Hiring teachers
 - Taking leave
 - Signing in visitors

PROCEDURE: a sequence of interdependent and linked steps that consume one or more resources (employee time, energy, machines, money) at every stage to convert inputs (data, material, parts, etc.) into outputs

You cannot change outcomes without changing the **procedures** that lead to those outcomes!

Effective Procedures/Best Practices Lead to Student Achievement!

When we think of Best Practices in any field, whether it be Healthcare, Accounting, Construction, Transportation, Public Education...

The goal is to share Best Practices

Instructional Practices

District math and science teachers work with local businesses in their respective settings to better understand the application of the subjects they teach and provide students with real-world applications.

Clarksville-Montgomery County School System (TN) Summer STEM Externships for Teachers

Non-Instructional Practices

- Student-directed and staffed
- Provides full-time tech services for 1,400 student/teacher laptops
- Provides real world IT experience for students
- Students receive certification
- Saves district more than \$20k annually

Central Community School System (LA) Student Run Help Desk

HUNGER STOP Cafe

Tipton County School's First Mobile Summer Feeding Site

LOCATIONS: SUNRISE APARTMENTS (1150 SIMONTON), TATLOCK APARTMENTS (TATLOCK STREET), COVINGTON HOUSING APARTMENTS (SHOAF STREET)

JUNE 13, 2016 - JULY 29

Sunrise: 10:00 am - 11:15 am

Tatlock: 11:35 am - 12:00 noon

Covington Housing: 12:20 pm - 12:45 pm

Tipton County (Covington, TN) renovated a school bus and turned it into a mobile feeding site with diner style seating. The Hunger Stop Café provides hot meals to Tipton County students aged 18 and under and serves lunches to children at four local housing projects within the county during summer months.

Gadsden City Schools (AL) Beautiful Rainbow Catering and Garden

Enables adolescents and young adults with significant cognitive disabilities to acquire functional academic and vocational skills leading to integrated community-based employment through organic gardening and catering services.

Make an

IMPACT

Putnam County School System Virtual Instruction to Accentuate Learning (VITAL) Program

- District-wide; supports 23 schools throughout the rural system
- 1 in 3 children live in poverty in the area served by VITAL
- 55% economically disadvantaged, 5% English Language Learners
- District failure rates declined by 33%
- High school graduation rate increased from 86% to 96%

St. Tammany Parish Public Schools Future Focus Camp

Specific outcomes in mind for Teacher PD

- Provided specific workplace training
- Provided relevant, engaging curricular resources
- Provided economic overview relative to business and industry workforce needs
- Tour local businesses
- Participation in open forum between educators and economic development representatives

Results:

- Increased high school graduation rates
- Increased number of industry-based credentials (IBSs) aligned to high-demand, high-wage jobs

Sustainability:

- BOE has put in strategic plan the core task of “Cultivating Community Relationships and Shared Understanding
- Fund program through Career Development Funds provided by Louisiana DOE

Provided documentation with their submission

Example: “Site Visit Notes”

1. How many employees do you have
2. What positions do you fill?
3. What should students know about your visit?
4. What are the requirements for an entry level position at this workplace?
5. Are there opportunities for advancement at this company?
6. Describe the hiring practice for this company.
7. What type of certification/degree/skill set does a person need to be employed here?
8. Do you invest in continuing education for your employees? If so, what type of continuing education?
9. What “hard” and “soft” skills are needed in this company? Which ones are needed in your industry?

How the CHS Help Desk works!

The following workflow, descriptions and documentation help explain how the student-run Help Desk at Central High School functions. These examples describe our current practices, but we are constantly striving to find more efficient ways to help our school community.

Examples Included:

[Example A: Help Desk Workflow](#)

[Example B: Google Form and Student Laptop progress sheet](#)

[Example C: Help Desk Device Work-log](#)

[Example D: Teacher Resource Page](#)

[Example E: Student Created training excerpt](#)

A student accidentally knocks your laptops off the desk! What do you do now?!?!

No Worries!!
Head to the Help Desk and let one of the student workers help out.

Help Desk Staff have student complete a work form and fill out a Google Form. **See Example B**

CHS Help Desk Workflow

Parts usually come in the next day. HD workers will sort and replace parts.

Laptops with physical damage such as a broken screen are place in hardware issues for the part to be ordered.

Once the laptop's issues are logged, Help Desk students begin the troubleshooting process. **See Example C**

Once students have verified that the issue is fixed, they complete a checklist to ensure complete functionality.

See Example C

HD workers will message the student informing them that their laptop is ready to be picked up

[Example A: Help Desk Workflow](#)

PALMREST REPLACEMENT

- Take off battery
- Take back off
- Take off screen (see page ###)
- In picture 1B unscrew screws 1, 2, 3, 4, and 5. In picture 1C flip up holder 1 and pull out number 2.
- Unplug cords numbered red on picture 1A
- Unscrew screws numbered 1, 2, 3, 4, 5, 6, 7, and 8 in green on picture 1A.
- Take off fan, headphone jack, charging port. They should just lift out.
- Pull down to take out hard drive.
- Click out the speakers located on the bottom of the computer.
- Pull the motherboard out carefully.
- Put it back in the new palm rest.
