Figure 6.2. Leadership Analysis

Area of Responsibility:

Directions: List each item from the Leadership Audit. Check the descriptor that best identifies the item. Make notes that support your rating.

Weak: Bears little or no relationship to the improvement of learning for every child. This item appears to be a traditional managerial task that does not require knowledge of curriculum, instruction, and assessment. Typically justified as an important responsibility, it is usually operational in nature and routine in delivery.

Mild: Has some relationship to the improvement of learning for every child. This item could be classified as supportive of structures and processes that build capacity in the school for improved learning. However, this item falls short of direct involvement in the instructional process and collaboration with teachers to improve student achievement.

Moderate: Has a relationship to the improvement of learning for every child. This item demonstrates a daily effort to support the instructional process through direct contact with students and teachers in the instructional setting. Performance of this item is grounded in collaborative work with teachers to improve curriculum, instruction, and assessment.

Strong: Has an influential relationship to the improvement of learning for every child. This item demonstrates out-of-the-box thinking to support the instructional process. This item requires a deep understanding of curriculum, instruction, and assessment and engages teachers in collaborative work to strengthen academic achievement.

LEADING LEARNING COMMUNITIES

Pillars, Practices, and Priorities for **Effective Principals**

National Association of Elementary School Principals Serving all elementary and middle-level principals

www.naesp.org 🗹 댥 @naesp 🙆 @thenaesp

27

Three Pillars of the Principalship:

Build Culture Empower People Optimize Systems

Effective principals:

Build culture to create schools that are great places to teach and learn.

Empower people to lead learning in ways that bring out the best in teachers and students.

Optimize systems to ensure that school operations, processes, and contexts support effective teaching and learning.

Effective principals <u>build culture</u> by:

Establishing shared values and vision for schools

Engaging and communicating with families and the community

Emphasizing personal and professional well-being and development

Effective principals <u>empower people</u> by:

Leading personalized and collaborative teaching and learning

Distributing leadership among a community

Supporting the academic, social and emotional, and physical needs of children and adults

Effective principals optimize systems by:

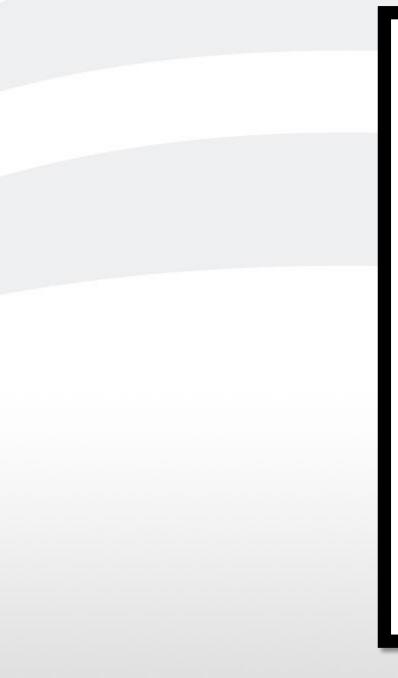

Managing talent and resources to maximize effective teaching and learning

Cultivating support in the district and community

□Focusing on what matters most

Conclusion and Implications

- Principals find the work of leading schools to be gratifying.
- When asked if they would do it all over again, the majority agreed that they would, and 62.4% indicated that they would recommend the principalship as a career to others.
- However, their personal satisfaction was offset by their perceptions of the increasing difficulty of the job as well as their concern that public education is having an increasingly difficult time attracting good people to the profession and then retaining them.
