DEVELOPING Leaders THROUGH QUALITY training, advocacy—AND— services.

Since 1949, by the Alabama Association of School Boards has served local school boards and other boards governing PK-12 public education agencies.

AASB works to improve educational opportunities for all Alabama public school students by developing excellent school board leaders through quality training, advocacy and services.

AASB, with the input of school board members and education leaders, developed six research-based standards that focus on school boards' most important responsibilities and on widely held public values.

AASB believes school boards in Alabama should strive to be committed to – and accountable for – being effective in all six areas.
