**Federal Newsletter on Education as shared by COSSBA – August 24, 2022**

### **Featuring COSSBA's Weekly Education Report**

The U.S. House and Senate are currently in recess through Labor Day and as a result, the next edition of COSSBA's Federal Newsletter will not be available until September.

However, we are pleased to introduce a new COSSBA resource, the *Weekly Education Report* which will be included and linked in future Federal Newsletters. This report provides an executive summary of public policy issues affecting K-12 education and employment.

We hope you find the education report to be informative regarding legislation and updates on education at the federal level.

To access this week's report, please click [COSSBA's Weekly Education Report](#)
