Relationships. That's the true value in becoming a member of the AASB Professional Sustaining Member program. It's a competitive advantage worth the investment. School boards – accountable for good stewardship of public dollars and the education of the next generation of leaders and change agents – can't afford doubt.

GET TO KNOW US

Since 1949, the Alabama Association of School Boards has served education leaders and the interests of local decision making in public education. In 1955, the Alabama Legislature designated AASB as the "organization and representative agency of the members of the school boards of Alabama." The act authorizes local boards to cooperate with the association, pay membership fees and reimburse board members for expenses incurred while participating in AASB programs. AASB has enjoyed 100% membership for many years and is supported by membership dues and proceeds from board training and services. AASB's mission is to develop excellent school board leaders through quality training, advocacy and services.
